A Message From Our Crossword Creator and The Den member, Emma

Everyday I sit and do the crossword in the newspaper with my mom, and across my immediate family, we compete to see who can get the most clues. This allows me to learn more as there are clues that I never would have known before completing the crossword,

and it gives me a chance to do something with my family. This session of The Den is all about sharing an interest or activity that is unique and other people might not have known about you. By creating a crossword puzzle about theater, I was able to incorporate two of my main interests in a fun and engaging way.
